## ***COMMUNITY BASED REHABILITATION ( CBR)***

***CONVENER : Mr. Rakesh Kumar Asst. Professor cum H.O.D. Hearing Impairment (Dept.)***

***DATE : 14<sup>th</sup> December 2022 to 15<sup>th</sup> December 2022 .***

***VENUE : Shalamar Village , Haider pur Village , Wazirpur Village .***

***NUMBER OF STUDENTS PARTICIPANT :- 35. D.Ed.SE (Hearing Impairment).***

### **LEARNING OBJECTIVES :-**

1. To Spread awareness among students about Community Based Rehabilitation and working for public Welfare .
2. Every Student is the future of the Country , Society , Community and Family , whose education and potential development in the school is required for their multifaceted Development . There is a need to give and receive information , especially at the community level in public welfare works .
3. General public support : it is difficult to arrange education and training of disabled children in the community without getting public cooperation . So it is necessary that the help of local people is obtained for this.
4. Identify Problems :- First of all the problem of disabled people is Identified in the community after which a rehabilitation problem is prepared according to their capacity .
5. Diagnosing problem after identifying the problems of the disabled people the most important duty of the rehabilitation worker is to prepare a plan to solve the problem and implement it.
6. Social Life : There is also an aspect of the community programme that efforts are made to integrate the person who has been separated from the society due to disability in rejoining society . This is a very important approach to the rehabilitation programme.
7. To encourage Students to understand the disability at the root level of the society and their associated needs.
8. To encourage students to prescribe the correct referral services for the welfare of the society.
9. To encourage students to explain the various institutional and community based services provided by the government to the parents of children with special needs.

## **REPORT**

The Students were divided in eight groups . Each group had a Leader . Each group visited one colony. The students surveyed door to door identifying special needs children . As they identified special need students, Tecnia Institute of Teacher Education Students took case history from the parents briefed them about various schemes available for them , explained about provisions provided by government at the root level and explained the benefits of the disability certificate , provided list of various hospital where they can go for assessment and necessary intervention , gave information about the ADIP scheme to the parents of the children with special needs. Thereafter when all the students returned back to the college , a group discussion was organized where all the students shared their experiences . In all the students were able to identify special students.

## **LEARNING OUTCOMES :**

1. The students were able to understand the real meaning of Community Based Rehabilitation.
2. The Students were able to provide correct referral services to the parents of children with special need.
3. The students were able to provide one on one guidance to the parents of special children as per their requirement.
4. By giving correct information about disabilities to such people and making them aware of scientific good , awareness can be brought in the community .
5. Can Cooperate successfully in implementing the programme so that people with disabilities in rural areas benefit from it.

For the success of this programme there is a need to disseminate information related to rehabilitation and make people aware.
